Business Impact

Focus expert time on the right accounts and grow profitable, durable relationships.

What We Built

Zurich Scout: a customer scouting agent that qualifies accounts and maps buyers to generate broker-ready pursuit briefs.

Proof Of Value

FDIC pilot: 70 financial institutions scoped, 304 buyer paths mapped, 18 validation candidates, 0 validation issues.

Not more leads. Better pursuit decisions.

Structured output. Guarded outreach.
Broker-first. Compliant by design.

Proof: qualification beats lead lists

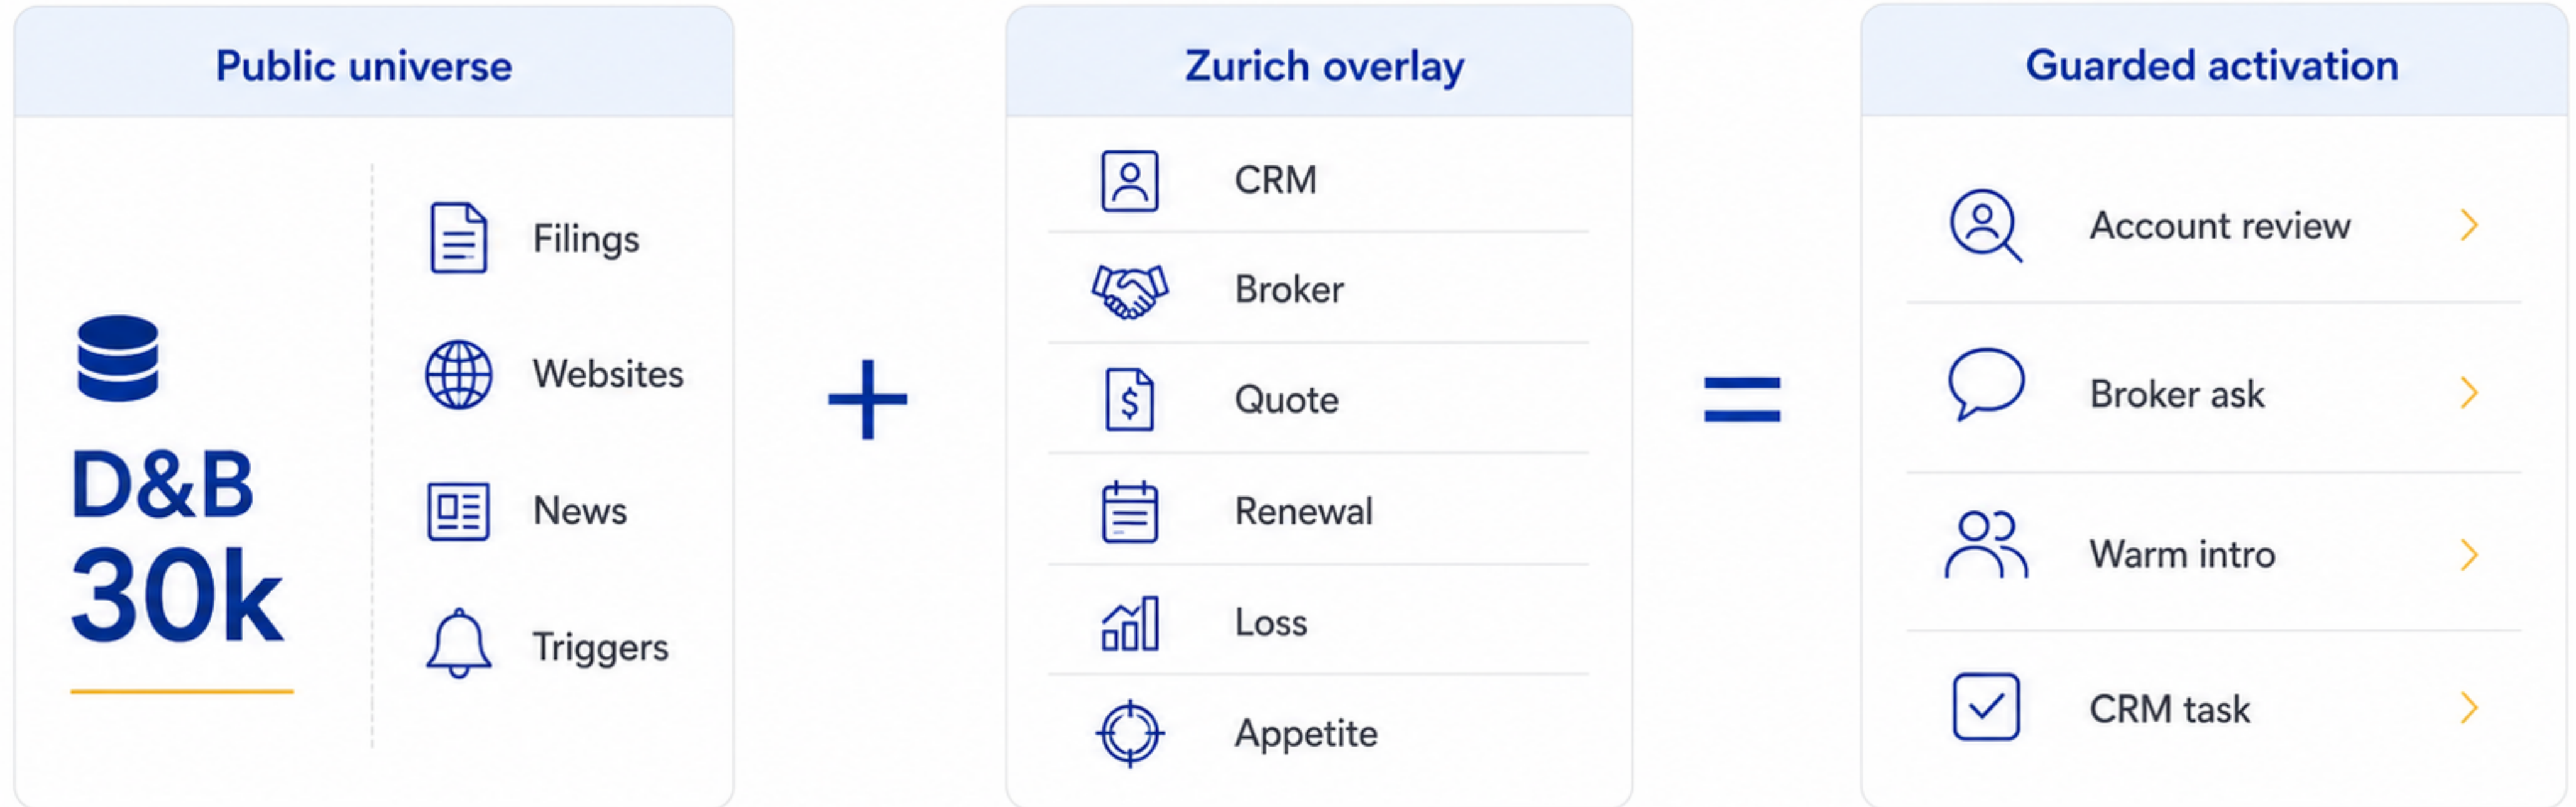

The pilot filtered 70 financial institutions into a **broker-safe Zurich action queue**.

Watch and reject are features: they protect expert time.

Zurich data creates the moat

Public scouting becomes defensible when Zurich overlays relationship memory.

Generic AI can research companies. **Zurich wins** when public signals meet proprietary relationship data.
